

To The Village of Wyoming Residents,

The Gas Light Restoration Project will be Starting in June, 2017. Harding Plumbing from Perry will be removing 20 gas lights from the poles for restoration. The village will then take our original gas lights to the Canal Metalsmith in Fairport. He will disassemble them to have the dents pounded out, sandblasted, new metal welded in, ground to look original and painted. The Canal Metalsmith is the same person who repaired the Academy Indian when it was stolen and broken years ago. This restoration will take 6-8 weeks to complete. When walking at night please take precaution and carry a flashlight.

A reminder to Village of Wyoming residents: installation of pools, decks, fences, sheds, or permanent structures requires a zoning permit. Contact Zoning Ordinance Officer Scott McCumisky by email scottmccumiskey@me.com or text him 993-1875 to obtain a permit; or you have any questions regarding permits or improvements to your property that may require a permit. Proper zoning is essential in making Wyoming a beautiful place to live.

I would like to thank everyone who took the time to come to the last board meeting to discuss the water system. Many people came being quite concerned because they heard the wrong numbers for the project or repayment cost. Joe Washburn did a great job with the Power Point and explaining the need and cost associated with the project. Many of the residents left feeling better and some even clapped in appreciation to Joe's explanation. We will send out a copy of Joe's power point soon.

The village will have a DUMPSTER day on June 17th from 9am until it is full. This is for the residents of the village only.

**When you need to contact the Village Clerk, Please
use one of the following**

Mail:

Village Of Wyoming
PO Box 183
Wyoming, NY 14591

Call or email:

Please call (585)495-6374
klacey@rochester.rr.com
